**Walk-in fee \$95**

**Register online: [www.aedpinstitute.org](http://www.aedpinstitute.org)**

**Space is limited. Preregistration is encouraged.**

Empathy, attachment and resilience are all buzzwords in the psychotherapy zeitgeist. Many models reference these concepts as core therapeutic principles. Fewer models explicitly translate these broad concepts into specific intervention strategies. AEDP strives to do just that with its dual clinical focus: directly translating attachment research into the clinical practice of fostering secure attachment, and naming, tracking and experientially amplifying the specific, moment-to-moment markers of positive transformation. This workshop will provide you with a starter kit of these techniques and the opportunity to collaboratively build upon them as we watch clinical video of actual sessions over the course of the seminar.

**Master Class: Saturday, February 8, 9:00am-1:00pm**

**Registration limited to 25**

*(Previous training in AEDP and attendance on Friday are required)*

*To register, please contact [judigoodman@gmail.com](mailto:judigoodman@gmail.com).*

**Upcoming Seminars:**

March 21, 2014: Kari Gleiser, Senior Faculty, AEDP Institute

June 7, 2014: Steve Shapiro, Senior Faculty, AEDP Institute

Benjamin Lipton, LCSW is a founding, Senior Faculty member of the AEDP Institute, supervisor of the AEDP Advanced Core Training program, and a supervisor for clinicians learning AEDP around the US and in Canada. Ben recently co-authored an article with Diana Fosha, PhD on operationalizing attachment theory in psychotherapy and has many additional publications in psychology and social service books and journals. He maintains a private practice in New York City.

3 CEU credits included
