Directions at [www.ants.edu](http://www.ants.edu)

Course Fee \$75 10% discount before March 7th

Walk-in Fee \$95

Register online: [www.aedpinstitute.com](http://www.aedpinstitute.com)

Space is limited. Preregistration is encouraged.

Attachment experiences between caregiver and child are powerful sculptors of personality, and become key determinants in how an individual relates to self, other and emotions over a lifetime. When a child's early attachment relationships are characterized by recurrent "errors of omission" that child can develop areas of psychic darkness or invisibility. Such "invisible" traumas are hard to heal, and left unrecognized, can become self-perpetuating, both relationally and intra-relationally. In this workshop, we will watch a session of a patient and explore how recognition plays an essential role in creating these bonds and sparking deep emotional processing of grief.

**Master Class: Saturday, March 22, 9:00am-1:00pm**

Registration is limited to 25 Class Fee \$100

*Attendance on Friday and previous training in AEDP (Immersion, Essential Skills, Cape Cod Institute, or Core Training) are required.*

**Upcoming Seminar:**

**Friday, June 6, 2014:** Steve Shapiro, PhD, Senior Faculty, AEDP Institute

**Kari Gleiser, PhD**, completed her doctoral work at Boston University and her internship through Dartmouth Medical School with a focus on trauma and PTSD. She specializes in the treatment of complex trauma, dissociative disorders and personality disorders. Dr. Gleiser is the co-founder and co-director of the Center for Integrative Health in Hanover, New Hampshire, a trauma center dedicated to multi-modal healing of mind, body and spirit. A faculty member of the AEDP Institute, Dr. Gleiser has written several clinical papers and book chapters on applying AEDP to treat dissociative disorders. She has led AEDP Core Training Groups in Boston and in Rio de Janeiro, Brazil and presented papers at various international conferences.
